Ambrotypes.

Ambrotypes.

The subscribes new offers to the public a new style of pleture, far superior to the Laguerreotype, made in Wheeling taily at his establishment. They are ternsed AMBROTYPES, the process for which is patented in the United States, Great Sritain and France. These pictures are the most beautiful and truthful ever produced by the Photographic art. The exceeding fineness, depth of light and shade, and richners of tone is wonderful. They do not reverse the subject, but represent everything in its true position.—They are without the glare of a dagnerreotype, may be seen in any view, and will last for ages unchanged, being IMPERISHABLE, hence the name, Ambrotype, which signifies Indestructibility. The picture is taken on plain glass, to which a nother plate of corresponding size is secured with au Indestructible cement by which the picture will retain its original brillnancy for ages; it with not, corrode by acids nor, being the content of the secure of the secure

anish brillnancy for ages; it will not, corrode by acids nor, be injured by water or climate.

Ambrotype Teleoscopes must be zeen to be appreciated the relief is an perfect as life.

Daguerreotypes taken at reduced prices Ladies and gentlemen are invited to call and examine my gathers.
